

Y12 into Y13 Applied Science Transition Work for Summer

1. Ensure your folder is ready with the following dividers
 - a) Learning Aim D- Enzymes in Action
 - b) Learning Aim E- Diffusion
 - c) Learning Aim F- Plants
 - d) Learning Aim G- Energy from fuels
 - e) Learning Aim H- Electrical circuits

2. Complete the Seneca learning assignment on how to write a report. This link is on Microsoft Teams underneath "Summer Work".

3. Complete the End of Topic Tests for Unit 1, this will keep your knowledge base up ready for any re-sit opportunities in January 2025. This document is also up on Microsoft Teams underneath "Summer Work".

Please understand that Yr13 is more difficult than Yr12 so you really need to hit the ground running in September, (but also have a deserved rest).

See you in September Yr13!

Miss Kelsall
